

Design Notes

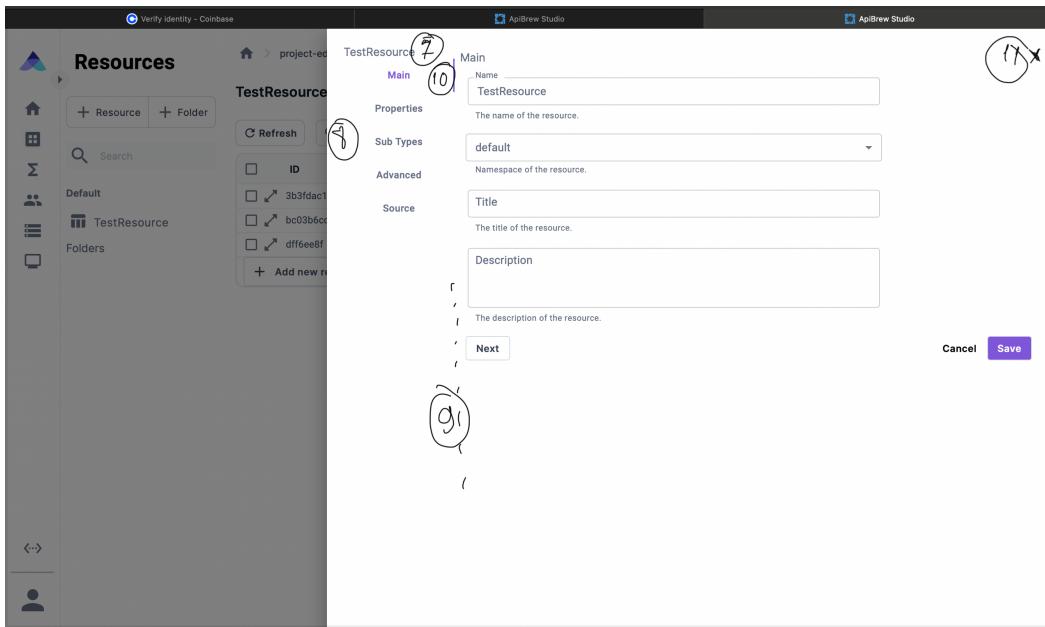

The screenshot shows the Apibrew dashboard for the project 'project-ed550'. The top navigation bar includes 'Notifications', 'Feedback', and 'Help' buttons. The main header says 'Welcome back, Taleh Ibrahimli' and 'Let's build your backend with Apibrew!'. Below the header are sections for 'Youtube', 'Faq', 'Community', and 'Documentation'. The central area features a chart titled 'Requests' showing data from Sat 05 to Tue 15, with a peak around Mon 07. Other sections include 'Nano Executions' (No data to display) and 'Storage' (No data to display). A 'Client libraries' section lists 'JavaScript / TypeScript', 'React', and 'Spring Boot' with their respective icons and descriptions. At the bottom, there are links for 'Back to projects', 'Taleh Ibrahimli admin', and 'Documentation Tutorials'.

1. Margin problem
2. Margin Problem
3. Wrong color on the line
4. Wrong color on the line
5. Line is not touching to horizontal line
6. Increase margin
7. Shadow problem on button group
8. Buttons problem (Documentation and Tutorials)
9. Margin problem between menu items
10. Color mismatch in menu levels
- 11.

The screenshot shows the Apibrew studio interface for the project 'project-ed550'. The top navigation bar includes 'Verify identity - Coinbase', 'Apibrew Studio', and 'Notifications'. The left sidebar has icons for Home, API Resources, Developer Tools, Users & Roles, Storage, and Monitoring. The main workspace has a large green plus sign icon and a message 'Please select a resource from the left panel'. At the bottom, there is a link 'localhost:5173/project-ed550/dashboard/resources'.

The screenshot shows the 'Resources' page in APIBrew Studio. At the top, there's a navigation bar with 'project-edc550' and 'API Resources'. Below it, a search bar and a refresh button are visible. The main area displays a resource named 'TestResource' with the identifier '#cde8b7bc'. A table lists records under 'TestResource', with one record highlighted. The table has columns for 'ID' and 'Name'. A green circle highlights the 'ID' column header, and a red circle highlights the 'Name' column header. On the right side of the table, there are buttons for 'Update Resource', 'Filter', and 'Sorting'. The left sidebar contains icons for Home, Default, TestResource, and Folders. At the bottom, there are pagination controls and a message 'Rows per page: 100 0-0 of 0'.

The screenshot shows the 'Properties' configuration dialog for 'TestResource'. The dialog is divided into sections: 'Main', 'Properties', 'Sub Types', and 'Advanced'. In the 'Properties' section, there are two properties listed: 'id' and 'version'. The 'id' property is set to type 'UUID' with a checked 'Modifiers' checkbox. The 'version' property is set to type 'Int 32' with a checked 'Modifiers' checkbox. There are also tabs for 'Prev' and 'Next'. At the bottom right, there are 'Cancel' and 'Save' buttons. The background shows the same 'Resources' page as the previous screenshot.

ID	Prop-21	Prop-31	Prop-41	Prop-61	Prop-51	Prop-71
3b3fdac1	Null	Null	Null	Null	Null	Null
bc03b6cc	Null	Null	Null	Null	Null	Null
dff6eebf	Null	Null	Null	Null	Null	Null

1. Search input has wrong color
2. Table Margin is not wrong from left and top
3. Button is not covering full space (optional)
4. Add new record button is not according to design
5. Table and input text are overlapping
6. Add New button has not margin
7. Header (Test Resource) is different compared to design.
8. Menu elements should be according to design
9. There should be a line as divider
10. Active menu item should have background shadow
11. X button should be according to design
12. Plus button should not be resized.
